PROFESSIONAL EXPERIENCE

Junior Operations Crew Analyst (McDonald's POS Systems)

Oct 2024 - March 2025

- Operated a digital POS system and queue management software, processing daily transactions with high accuracy and reducing guest wait time during peak hours.
- Coordinated onboarding and training for 3 new crew members on POS navigation, order modification, and basic hardware troubleshooting (receipt printer, card terminal), resulting in zero end-of-day discrepancies.
- Reported system downtime and network irregularities through structured incident logs to the store manager, enabling proper escalation that helped IT support trace root causes and reduce recurring POS freezes.

E-commerce Technical Support & Customer Experience Agent

Jul 2024 - Aug 2024

- Managed 100+ weekly technical support tickets via Salesforce, resolving issues related to login failures, checkout errors, payment gateway timeouts, promo code glitches, and order tracking.
- Guided customers on how to buy or use the Macy's website through their own device, always insisting they perform steps on their own to learn and master the UI or process; also successfully upsold products during technical support calls.
- Conducted root-cause analysis on 15+ recurring technical issue patterns (e.g., cart abandonment due to address validation errors, wrong pin location, refund process) and documented findings in a shared knowledge base; directly contributed to two process improvements implemented by Macy's IT development team.
